

Electrofusion Fittings

RADIUS
Systems

Catalogue 2009

Market leading fittings compatible with all polyethylene pipes

- Manufactured in accordance with EN1555 & EN12201
- Available with 4mm or 4.7mm pin
- Supplied with universal barcode
- Large diameter fittings available with easigrip handles

Head Office: Radius Systems Ltd

NEW!

QuickTee

The new QuickTee from Radius Systems for time and cost savings in gas & water connections.

Fewer joints in the system - risk of leakage is reduced for increased system integrity

- **Single welding operation**

2 joints can be made in one single operation - saves considerable time on service installations

- **Ready-to-weld socket outlet**

No need to scrape the outlet of the fitting - saves time on the connection

- **Integrated clamping mechanism**

Unique clamping ring incorporated within outlet of fitting - no requirement for additional tooling

- **Fewer joints in the system**

QuickTee incorporates a socket outlet which overcomes the need for an electrofusion socket fitting

- **Less risk of leakages**

For more information on the new QuickTee from Radius Systems
